Mahider Mengiste
Software Engineer

SUMMARY

Creative, detail-oriented, software engineer with a deep interest in AI. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineering Apprentice at General Assembly, Washington, DC

June 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

RecipeTap (Fullstack Web App) – https://github.com/Mahider-Mengiste/Recipe-App-Clie

A user can easily browse through a wide range of recipes on RecipeTap by logging in and browsing the site.

ONEPLACE (Fullstack Web App) – https://morning-water-2618.herokuapp.com/todos

A To-do list application built with JavaScript, Mongoose, MongoDB, liquid template language, node.js, and express.js technologies.

Whack-Mole-A - https://guac-mole.netlify.app/

A user collects as many "moles" as they can within ten minutes. If the user is unsatisfied with the outcome, the game also has an option to start over.

Software Engineering Teaching Assistant at Refcode, Atlanta, GA

September 2022 — Present

- Assisted students in debugging and developing their own troubleshooting skills by providing instruction and resources.
- Assisted students in building resumes and practicing interview questions.
- Helped students overcome mental and logical obstacles by providing support and guidance

Help Desk Specialist at MCEOC | Rockville, MD

May 2021— Present

Resolved 20+ trouble tickets per day through efficient triaging of problems.

VOLUNTEERING

Refcode| Atlanta, GA

September 2022 — Present

Developed a website for Refcode with a team of developers.
